★SERVICE REFERENCES

1. Chain Catcher

Original models were manufactured with a one piece Chain Catcher. Models are now manufactured with a two piece Chain Catcher and Retainer. Note the differences as illustrated below. This bracket provides better support for the Chain Catcher. If your unit uses the one piece design illustrated below you will need to order the new Chain Catcher and Chain Catcher Retainer (see illustration below for part numbers) to service your unit. If you have the two piece assembly illustrated below, you can service your unit directly. Installation instructions are included with the Bracket Kit.

One Piece Assembly

Two Piece Assembly

<u>Key No.</u>	<u>Part No.</u>	<u>Description</u>
55	530027732	Chain Catcher Retainer
62	530027733	Chain Catcher

2. Oiler Adjusting Screw

Units have been manufactured with different type oiler adjusting screws. When ordering the screw, refer to the illustrations below and order accordingly.
